

“We challenged ourselves to capture the tiny sparkles of light on natural minerals.”

— Bob Cameron - Rockcote FOUNDER

How does Mother Earth glitter? Naturally.

About Clearcote

- › A clear acrylic sealer-finish and an optional enhancement to **Rockcote Coloured Render Systems**.
- › Retains the natural aesthetic of **Rockcote Coloured Render Systems** while adding a little more shine and protection.

Key Benefits

- › Helps to seal the **Rockcote Coloured Render System** to repel water while subtly amplifying the natural life and liveliness of minerals within Rockcote Coloured Renders.
- › Enhances resistance to mould and grime pick-up, and makes **Rockcote Coloured Render Systems** even easier to clean and maintain.

Clearcote is a clear, protective sealer-finish that retains the natural aesthetic of the **Rockcote Coloured Render System** while adding a slight sheen. In the same way that fresh rain amplifies the reflection of light, **Clearcote** provides a little extra sparkle.

Clearcote & Rockcote Coloured Render Systems

About Rockcote Colour Render Systems

› **Rockcote Coloured Render**

Systems bring the art, romance and skills of the past to modern Australian architecture and building design.

› A highly durable, water-repellent, breathable and weather-resistant finish combining rich colours with stunning, mood-altering textures.

› Inspired by natural material aesthetics and traditional artisan finishes.

Clearcote: An Optional Enhancement to Colour Render Systems

- › Enhancing **Rockcote Coloured Render Systems** with **Clearcote** is easy.
- › The natural aesthetic is retained, but given a little extra spark of life, thanks to **Clearcote's** slight sheen.
- › **Clearcote** helps seal and protect Coloured Render Systems and helps make maintenance even easier.
